START YOUR DIGITAL TRANSFORMATION WITH US

Constantly Expanding

We are proud of our communication network of fibre cables, radio links and 4G, providing so many with high-capacity, resilient and low-latency connectivity. But we are always looking to improve. Our goal is to always be the preferred offshore network provider, and we are constantly expanding our infrastructure and improving our capacity.

Raising the Standard

WE ENABLE

THE CONNECTED WORKER

- Crew with wireless devices will have real-time access to data.
- Optimize planning and execution of day-to-day operations.
- Collaborate across transition pieces, towers, nacelles, substations, jack-up vessels and crew transfer vessels.
- Transparent coordination with control room operators and fellow workers.

IOT AND OFFSHORE RIG MONITORING

- Remote monitoring with ultra-sensitive sensors that trigger inspection and maintenance.
- Digital twin technology and the use of big data analytics for optimized operational performance.
- Improved worker safety, especially for lone workers in hazardous working environments.

SECURITY & AI

- We protect our customers from cyber-threats so that the offshore digital transformation can be executed without problems or set-backs.
- The Darktrace Cyber AI Platform will protect you from both external and internal threats. Contact us for a demo.

WE CONNECT YOU TO THE CLOUD

With our subsea fibre optic network
and 4G LTE/NB-IoT coverage,
Tampnet has a brilliant infrastructure
that enables digitalization of offshore
operations within oil & gas, maritime
and wind energy.

Once you are online with us we can offer a
world of opportunities:

*Raising
the Standard*

TABLET APN

CONNECTED WORKER:

Connect tablets, smartphones and wearables to our 4G network, and get your data to the cloud.

SENSORS

IOT & OFFSHORE RIG MONITORING:

Connect high-sensitivity sensors to our NB-IoT network, and get your data to the cloud.

DARKTRACE

Cyber Platform AI

DARKTRACE

SECURITY & ARTIFICIAL INTELLIGENCE (AI)

We protect our customers from cyber threats so that the offshore digital transformation can be executed without problems or set-backs. The market leading Darktrace Cyber AI platform is used by more than 3 000 enterprises world-wide and will protect you from both external and internal threats.
