

CASE STUDY

Short Notice Inspection with limited POB

Challenge

- Limited time window
- Restricted POB
- Covid absences
- Marginal connectivity

Solution

- Short Notice mobilization
- Only one inspector on rig from team
- Two-way collaboration with onshore experts
- Successful survey

Testimonial

“The Streamsolution system is an effective step in our drive to reduce POB offshore through the right application of Digital technology, and we will look to be using it in the future”

Results

- ✓ No need to send out entire inspection team
- ✓ Survey performed in limited time window
